

*Just a note.....from connie*

*It's been a whole year already, since Tim and I took on the serious knowledge that we were going to battle Amyloidosis together, and the altering of our lives both ending our careers and relying on God to guide us through what He had planned. What a ride. What an experience. He has been faithful.*

*Tim has struggled physically with this disease without complaining or giving up hope or allowing it to diminish his desire to help others.*

*Secure Harbor, a thought, a dream, a reality. So many people we have to thank for its continuing success. We have been able to help families from the east to the west and the north to the south, and if I wasn't geographically challenged, I might even name the states, but that is not important. It is the fact people were helped, and people did get relief and people with amyloid are why we are in this business after all.*

*Just like everyone else in the world, we would have not involved ourselves, had a loved one not been stricken with this horrible disease.*

*Our final visit for 2009 to Boston, we were honored with the presence of wonderful, compassionate research genius'; and the man who leads the team, Dr. David Seldin. Tim and I were told a couple years ago, if anyone finds the cure, it will be him. We are confident still, especially after meeting with the brilliant research people, and the phenomenal Clinical Trials office, led by the ever dedicated Kathy Finn, and the superb Autologous Stem Cell Transplant team led by the exceptionally gifted Dr. Vaishali Sachorawala . Amyloidosis patients choosing Boston Medical will receive the finest, most up to date medical treatment available to anyone. ([www.bu.edu/amyloid](http://www.bu.edu/amyloid))*

*Thank you friends, families, and visitors to this website. We have today, Boston Medical Center's Amyloid program and the dedicated staff gave Tim and I one more day. And we thank God for them and you. May we continue to be successful with your support and prayers.*

*"Let us not become weary in doing good, for at the proper time we will reap a harvest if we do not give up. Therefore, as we have opportunity, let us do good to all people.....Galatians 6:9-10*
